Comments & Future Program Topics You Would Be Interested In:

- Excellent program—more programs that relate to real events/scandals with attorney obligations, etc. would be great (i.e., brings the law alive). Speakers with personal knowledge/experience are fantastic!
- Great history lesson. I’m not an attorney and wonder if there were enough lessons in the presentation to apply to working attorneys.
- Wonderful presentation. Informative and entertaining.
- Great fit for ACC attorneys – worst case scenario for in-house counsel.
- Best CLE I have ever been to in 35 years of practice – Bravo!
- Such a wonderful trip back in time, with such current application!
- Good use of media. Marshall McLuhan would be proud of you due to the medium is the message. Other topics: (1) Clinton’s impeachment (2) Feb., 1942 Order dealing with Japanese internment.
- Within the constraints of your budget, I would love to see the “student” (or even “clerk”) price to be affordable for more in those classes.
- This program addressed ethics in connection with criminal law issues. I’d also be interested in a program addressing ethics in connection with regulatory (civil) issues, such as minor infactions.
- Fascinating CLE!!! Thank you!
- Excellent & Fascinating!
