## Information Security Course Summary

This 30-minute course explains the basic principles of information security in simple, understandable terms. Our online version includes pop-quizzes, news clippings and a final quiz highlighting real-world compliance issues that employees should learn to recognize and respond to appropriately. The topics covered in the course include —

- Information security overview
- Electronic IDs and passwords
- Avoiding identity theft
- Information classification
- Computer viruses and hoaxes
- E-mail and Internet use
- Extra e-mail precautions
- Workspace security
- Social engineering
- Business continuity plans
